I think it is desirable to depute Medical officers in service to Europe & America to brush up & improve their knowledge. Dr Srinivasam has a good record of service & is likely to benefit by a deputation. He is one of the best men in the dept likely to do well in the charge of important hospitals. A deputation of about one year may be considered.

Final Note by the Third Member of Council.

Subject:- Deputation of Mr.F.Noronha of the Medical Department for foreign training in Medicine.

The general question of the grant of foreign scholarships and deputations to foreign countries was considered at the meeting of the Council held on the 24th June 1920 when it was resolved, among other matters, that Mr.Asirvatham might be sent out from the Medical Department.

Page 5 of Office Notes

2. With reference to the Huzur Secretary's demi-official letter No.11 dated the 6th July 1920 enquiring whether Mr.Asirvatham would be the best man to be sent to Europe, the present Senior Surgeon was consulted in the matter. He states that Mr.Asirvatham is already 49 years and 3 months old and that he has no objection to his being deputed if his age and health are not against him and suggests for selection the names of Messrs.N.Rangachar, F.Noronha and C.Rajagopal Mudaliar. Among these, Mr.Noronha has already applied for specialisation in Psychotherapy and the late Senior Surgeon Mr.Arumugum Mudaliar has supported his application.

In continuation of my letter No C12757 dated 8-3-1920 I have the honor to forward herewith another application, viz., that of Mr. S. G. Asirvathum, renewing his request to be deputed to England for advanced studies, as required in your letter No 6586/Med.157-12-9 dated 8th March 1916, and to state that while in his former application he had desired to be sent to England, he now prefers to be sent to America, where it is understood that greater facilities could be obtained by students than in England where the conditions are reported to be still far from satisfactory. Mr. Asirvathum wishes to specialise in diseases of the throat, nose and ear and in abdominal operations. He also promises to take advantage of the opportunity by getting himself acquainted with the latest developments in Electro-therapy.

As the conditions in England are understood to be still hard, I recommend that any candidates that may be selected by Government for foreign training in any branch of medicine or surgery may be ordered to proceed to America instead of England, for some time to come.

I have the honor to be,

Sir,

Sir,

I beg to invite a reference to your office Memo. No. 4452, dated 13th March 1916, informing me that the Government had ordered a postponement of the consideration of my application for being deputed to England for advanced studies, till the return of normal conditions after the conclusion of the war and to submit as follows

Flag C

2. I had applied, as far back as March 1913, for being deputed to England for one year for advanced study and, not having received any order, repeated my request in January 1914. I was then

asked to define the course of studies I would make in England and to give certain other particulars and I duly submitted the required information in my letter dated 15th June 1914. Further, in reply to another communication from the Government, I submitted in my letter dated 30th May 1915, that "in spite of the inconveniences and risks due to war" I was prepared to proceed to England for a post graduate course. On this, your office Memo. first referred to was received.

3. Now that it is some time after the war ceased and normal conditions are being fast restored, I hereby renew my application with slight modifications; viz., (1) I may be deputed to Americ instead of England as I learn from enquiries that conditions in the latter country are still very unsatisfactory for Indians proceeding there for purposes of study and that the former offers better facilities, and (2) that as a young man has already been deputed for the study of Dentistry, I may be permitted to specialise in Diseases of the the Ear, Throat and Nose and in abdominal operations. I shall also avail myself of the opportunity to acquaint myself with modern developments in Electro-therapy.

D. O. No.

Bangalore, 20th July 1920.

Dear Sir,

Your D.O. letter No.103-C.B., dated 19th July 1920. I have seen this office letter No.1275-8, dated 30th March 1920 forwarding Mr. Asirvathum's application for being sent abroad on deputation.

In the case of officers who have once been to England a short deputation, say, for six months, may be sufficient. But in the case of those going there for the first time, it is no good sending them for any period less than a year or year and a half. Mr. Asirvathum is already 49 years and 3 months old and by the time he goes and returns he will be nearly 51 years so that the Government will have only about four years of his service and use of his foreign training, in case the 55 years' rule is enforced. This view may be taken into consideration in deciding the case.

As for choice of the country to which our youngmen should be sent, I found during my stay in England that the War had affected the Hospitals only in point of equipment. But as regards facilities for study, things have very much improved now. In fact many institutions which were not open to post-graduate study before, have now been thrown open to all and our students could find every facility and convenience for advanced study. Besides, we are accustomed to the British methods of education and our students will certainly find it easier to study in England than in America where things are quite different. I would therefore strongly recommend our students being sent to England, preferably to London and not to America.

Yours sincerely,

Balasundaramier
